Call For Speakers!

Speak at Transylvania Cloud

Speak at the Transylvania Cloud User Group Meetup

We're looking very forward to your talk. Contribution like yours are what builds vibrant communities. Thank you for engaging!

We accept talks that are Cloud Computing Technologies related including and not limited to: Amazon AWS, Microsoft Azure, Google GCP, OpenStack, IBM Cloud for public, private and hybrid cloud technologies.

This could be:

- a quick 10 minutes lightning talk or just quickly showing a cool workaround
- it could be an introduction or overview to a new cloud service
- it could be a full presentation or demo (live or recorded) - (max. 30 mins)

What's in it for YOU?

- by preparing the talk YOU actually understand the topic better
- YOU get the chance to actually double-check YOUR approach with qualified audience - for free
- YOU get an opportunity to network
- To test your thoroughness on your chosen topic, you'd expect an more active than usual Q&A session from our attendees
